# DOLPHIN SAFARIS

*See wild dolphins in the Ocean*

*See Dolphins as they are supposed to live*

Ocean Tribe dolphin-watching safaris in Diani give everyone the opportunity to see dolphins, up-close and personal in their natural environment.

This is a completely different opportunity to those who have seen them in dolphinariums and theme parks such as SeaWorld. These are tiny swimming pools where the dolphins are expected to perform circus tricks in exchange for small fish scraps.

The ocean where the dolphins are supposed to be and our dolphin-watching safaris in Diani take you to dolphin hotspots. There we hope to be able to see dolphin pods on the surface and if conditions allow, and depending on swimming abilities, to get in the water with these awesome mammals.

## What Will I See?

The dolphin-watching safaris in Diani will take you up and down the Diani coastline trying to locate dolphin pods to give you a sighting of them. The boat ride in itself on our comfortable dolphin safari catamarans is a thrill as we go out over the outer reef of Diani and begin the dolphin-watching cruise.

Wild dolphins are sociable speedy ocean creatures. The experience you will get on your dolphin-watching safari in Diani really depends on them, and of course the weather and environmental conditions.

Dolphins do tend to be visible in the same locations for much of the year, however, our tours are only run during certain months to give you optimal viewing conditions and avoid choppy seas, wind, and rain. We rely on our skippers to decide whether a dolphin-watching tour goes ahead and the departure times and trip durations.

## Reasons To Go On A Dolphin Watching Safari In Diani

- You wish to understand more about dolphins and dolphin behaviour. Wild dolphins in their natural environment are so far removed from captive dolphins, you will get a much better glimpse into their lives, habitat, and behaviour.
- This is the chance to see an animal that is considered by some to have the near-intelligence capacity of humans. That being said whether they are really talking to each other with clicks and squeaks, or whether they are as intelligent as perceived, seeing dolphins in the wild on the dolphin-watching safaris in Diani will really change your perception of all animals being 'dumb'.
